As a **Full Stack Developer** I build responsive web and mobile applications. I manage both front-end and back-end development. Committed to Agile practices, I collaborate effectively within teams to deliver high-quality solutions. I strive to create impactful software that contributes positively, socially, or ecologically. My focus is on continuous learning and using technology to drive meaningful change.

EXPERIENCE

Full stack developer | 2024 spring to february 2025

At Selego, Start up studio

- Lead Developer: Promoted to lead developer, responsible for overseeing the end-to-end development of key projects: Oz Ensemble and Jobmaker.
- Zurban App: Spearheaded the creation of the Zurban app, an R&D initiative for managing contacts. Led the communication with the client and coordinated development.
- Jobmaker: Managed the support, project specifications, roadmap, and client communication to ensure successful project delivery and alignment with client expectations.
- Petclub: Defined the project roadmap and prepared client billing, ensuring smooth execution and timely invoicing.

Full stack developer intern | 2023 winter

At Selego, Start up studio

Worked on Oz Ensemble, a React Native app designed to help people master their consumption habits, and Jobmaker, a web app that supports individuals in building their careers.

Web development intern | 2022 summer

At Osané, holiday camp

Implementation of web payment and subscription pages

Computer engineer intern | 2021 summer

At Arkema, specialty materials company

Benchmarking

Realization of Power BI records and data flows

Development of a web app with PowerApps.
